SOFT SKILLS

- Time management
- Teamwork
- Critical thinking
- Conflict resolution
- Flexibility
- problem solving
- adaptability

Experience
Pakistan, Remotely

Splenify
02/2024 - 05/2024

During my full-time Work of over 10 months at Splenify, I developed 6 apps,

France , Remotely

Farkito
02/2024 - 05/2024

During my full-time internship of over three months at Farkito I developed and released two apps, Diyafa Customer and Diyafa Staff applications, using Flutter, I worked with both backend and Flutter developers. I also received a Recommendation letter and Completion certificate.

Reference
you can contact the CEO of Farkito, Kennou. He is available at contact@farkito.tn or +33 6 99 88 09 74.

Projects
Diyafa Staff
Google Play | Video

Ten hotels' service order management was made easier by the software, which had six user roles, scheduling, status tracking, and a custom user interface with complete API connection.

Diyafa Customer
Google Play | Video

Created a responsive application that allows users to plan delivery, place orders for specific items, and manage mistakes and edge cases to guarantee seamless operation.

Choose Your Champ
A bodybuilding app for ranking bodybuilders, creating leagues, and tracking results. Admins manage participants and events, with features like notifications and profile management.

Makers Media – Brick Less – Truck App - Empathy – InHomeStyle

SPARK Work Management System
Github | Video

A compact team management app with real-time chat, task deadlines, and an employee directory, built on BLoC and MVVM

Qata3
Video

An app that allows users to browse over 35,000 products from 2,700 firms.

Face detection with AI
Github | Video

Connecting a Flutter app with TensorFlow Lite (tflite) and Teachable Machine to recognize faces and expressions.

Education
Computer Science and information Tanta University

Languages
Arabic: Native proficiency (C2)

English: Above average proficiency (B2)
